

Nonlinearities - from Turbulent to Magic

NORDITA AND NIELS BOHR INSTITUTE THEMATIC WORKSHOP

Wed 17 - Sat 20 May 2006, Copenhagen, Denmark

IMAGE: P CVITANOVIĆ

Sponsors: NORDITA, BioNET and Niels Bohr Fond

Themes: The workshop focuses on recent advances in physics of complex systems, classical chaos and turbulence, wave and quantum chaos, and much exceptional magic beyond.

Speakers: E Aurell, V Baladi, D Barkley, M V Berry, E Bogomolny, A Brandenburg, A S de Carvalho, B Eckhardt, C Ellegaard, M J Feigenbaum, H Fogedby, T Geisel, P Grassberger, G Gunaratne, F Haake, G Huber, A D Jackson, J P Keating, U Kuhl, I Mezic, P Muratore Ginanneschi, S Nonnenmacher, M Oxborrow, M Paczuski, R Penrose, J Parrondo, I Procaccia, A Richter, U Smilansky, N Sondergaard, E A Spiegel, G Vattay, F Waleffe, N Whelan, A Wirzba

Scientific direction: B Lautrup (chair), G Tanner (co-chair), P Cvitanović, A Brandenburg, M H Jensen, R Artuso, S Creagh, T Guhr, G Huber, H-H Rugh. **Artistic direction:** P Cvitanović.

Registrations, with a brief description of research interests should be entered into the [conference website](#) before **1 April 2006**. Junior researchers applying for partial support should also arrange for letter(s) of reference. For information please contact:

Secretary: Hanne Christensen, Niels Bohr Institute, Blegdamsvej 17, DK - 2100 Copenhagen Ø
